# PRESTON BARRACKS FIRST PHASE WORKS

Dear Residents,

Work at Preston Barracks has progressed well. We are nearing completion on the lower site and are in the process of handing the site over to the construction company to begin their phase of the works.

We will soon be starting demolition works on the residential building to the north west of the site. This will involve the movement of excavators along the lower part of Saunders Park View. No access will be allowed or in fact be necessary to the upper part of Saunders Park View. We will conduct these movements under the direction of banksmen to ensure they are done without risk to members of the public and the local environment. Once the plant is in the new location we will check and if necessary clean any mud and debris from the road way so it is left clear for your use. Demolition of the residential building and subsequent site clearance should take no more than 4 to 6 weeks and even quicker should all go well.

We would like to thank you in advance for your patience during these operations. Which we will endeavour to complete with as little inconvenience to our neighbours and local businesses as possible.

We also welcome the opportunity to discuss your individual requirements and any concerns that you may have. Hopefully by understanding your requirements and with good communications we can ensure that any possible disturbances are avoided.

It is our intention that we will provide further updates throughout the works for those whom may have an interest. We propose to email these updates as required and ask that you express

your interest by emailing us at the following address so that we may include you in all future communication: [info@metro.uk.net](mailto:info@metro.uk.net)

If at any time throughout the works you have any queries or concerns then please don't hesitate to contact me by any of the following means.

## CONTACT DETAILS

METRO DECONSTRUCTION SERVICES:  
Demolition Contractor

MANAGING DIRECTOR: Mark Taylor

TELEPHONE: 07966 612 909
