PRESTON BARRACKS CONTRACTOR UPDATE

Dear Residents

We are writing to inform you that the demolition works at Preston Barracks has now completed and our demolition contractor, Metro, has successfully completed their contract. We would like to inform you that a new contractor will be starting on site now.

Edburton is a West Sussex based contractor who have started the infrastructure works on site. These initial works are progressing well. The materials remaining from the demolition works have been removed and the drainage works at both ends of the site are underway.

At the south end of the site Edburton are currently installing the new access road, this involves the installation of new services and various utility contractors also being on site. Whilst works happen on the new access road, a temporary access road will be installed for site traffic.

The excavations at the northern end are for new surface water soakaways (to drain away rainwater). These have a crate type in-fill, and these will be connected to the associated manholes and pipe work as the site progresses.

Works commence on the University of Brighton's Watts site access road on Monday 21st May. Access to the car park will be available during the first phase although there may be the occasional delay due to deliveries, however we will try to keep these to a minimum. We expect this phase to last approximately 4 weeks.

We would like to thank you in advance for your patience during these works, which we will endeavour to complete with as little inconvenience to our neighbours and local businesses as possible.

We also welcome the opportunity to discuss any individual requirements or concerns that you may have.

It is our intention that we will provide further updates throughout the works at regular intervals.

IF AT ANYTIME THROUGHOUT THE WORKS YOU HAVE ANY QUERIES OR CONCERNS REGARDING THE WORKS THEN PLEASE DO NOT HESITATE TO CONTACT US AT [INFO@EDBURTONCONTRACTORS.CO.UK](mailto:info@edburtoncontractors.co.uk) OR ON 01903 813665.

Yours faithfully

David Wells
